

ONLY GOOD PRESENTATIONS CONVEY THE OBTAINED STUDY RESULTS

In the meantime we have 19 years of experience in study management, which means that we have achieved great expertise in writing German or English texts. We can compile the following documents for you:

- Study protocols / Statistical Analysis Plans
- Patient information / declarations of consent
- Newsletters for study doctors
- Final reports
- Poster presentations
- Powerpoint presentations
- Articles in high-ranking journals or for patients

The listed forms of data presentation are specified with you regarding extent and level of editing, so the presentation optimally appeals to your target group.

Upon request we take over the compiled lectures and/or poster presentations or are of assistance in preparing press conferences.

In this context we would like to refer to the great number of our own publications and participation in national and international publications as well as our editorial work (statistical column) in the professional journal 'Kieferorthopädie'.
